CRONAMERE ALPINE NURSERIES INC.

*Continuous Bloom in
the Rock Garden*

Acclimatized Plants —

Shore Road
Greens Farms
Connecticut

Cronamere Alpine Nurseries, Inc.

SHORE ROAD, GREENS FARMS, CONN.
TELEPHONE FAIRFIELD 1329

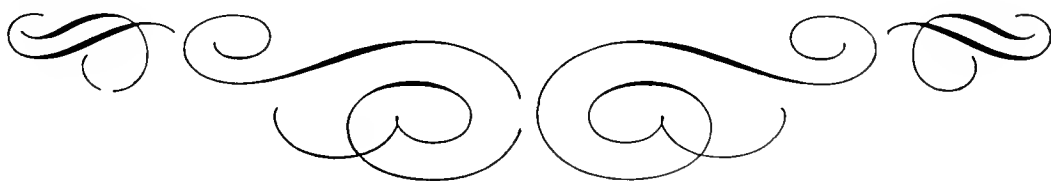

FOREWORD

EACH AND EVERY YEAR is one of enthusiastic interest and hopeful anticipation to the alpine gardener. Past disappointments are quickly forgotten in the joy of new revelations of beauty and charm. This year our catalogue lists a wealth of plant material with which to beautify your gardens; rock and alpine plants from the high elevations of mountains and plains throughout the world.

*"Why thus sighing, thus forever longing
For the far off unattained and dim
While the beautiful all 'round thee lying
Offers up its low perpetual hymn?"*

We wish to take this opportunity to express our sincere appreciation to the many gardening friends who have helped to make Cronamere Alpine Nurseries a success. In this catalogue there are many species and varieties of alpine and rock plants of great beauty. Many of these plants have never before been listed in this country. A cordial invitation is extended to you to visit our rock gardens. **Garden Clubs are asked to notify us a week in advance in order that a day may be reserved.** It will be of interest to those who were here during 1933 to see the new additions which have been made in our rock and wall gardens.

The Rock Garden in July

All rock plants require firm planting, good drainage and stone chips over the surface of the soil and under the foliage. The rare and diminutive types of alpine should have a section to themselves to prevent the encroachment of plants of a more robust or rampant nature. Most alpine should be cut back after the blooming period is past which will ensure a second bloom in many species. While not absolutely necessary, a light covering of salt hay should be placed over the rock garden in winter in climates where cold frosty winds prevail and there is no protecting blanket of snow. In spring a top dressing of sand and leaf soil is very beneficial, adding lime for plants which require it.

A CAREFUL PERUSAL OF OUR CATALOGUE WILL ENABLE YOU TO MAKE A SELECTION OF PLANTS WHICH WILL PRODUCE A PROFUSION OF BLOOM AT CERTAIN SEASONS, OR CONTINUOUS BLOOM THROUGHOUT THE YEAR.

This catalogue includes only a partial number of the many species and varieties of alpine and rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

The following list of plants have been tested for hardiness. All our plants are thoroughly acclimatized in this section before being sent to the customer. We have found after they become accustomed to our climatic conditions in New England that their growth and cultivation present very few difficulties or losses when transplanted into other gardens.

WE HAVE A TRAINED GROUP OF MEN, WHO ARE THOROUGHLY EXPERIENCED IN THE CONSTRUCTION OF ROCK GARDENS, AND THE BUILDING OF WALLS AND POOLS. ADVICE GIVEN FREELY ON THESE SUBJECTS.

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

TERMS OF SALE

Sufficient money must be added to order to cover cost of postage. Our terms are strictly cash, but we will ship C. O. D. provided 25% of the amount of the order is remitted.

Where two prices are mentioned, the last is quoted for specimen size plants.

Plants leave our nurseries in fine, healthy condition. All plants are inspected and carefully packed according to the best methods to insure safe transportation.

We cannot be liable for cases of failure due to transportation or other causes.

10% discount is allowed on 10 plants of one variety.

Spring and Early Summer (Early March until July)

ACHILLEA		3 for
Argentea. Silvery foliage. Pure white flowers. Height 4 in. Dalmatia.	each 35c	1.00
Nana. Soft downy foliage. White flowers. Height 6 in. Europe. New.	each 40c	1.10
Tomentosa alba. Dwarf habit. White flowers. Europe and North America.	each 30c	.85
ALSINE—Liniflora. Tufted foliage. Large pure white flowers. Europe. Very choice.	each 60c	1.65
ANDROSACE—Androsaces require good drainage, gritty loam and sunny situation.		
Maxima. Small flat green rosette bearing dainty white flowers.	each 35c	1.00
ANEMONE		
Patens. (Pasque flower) Large showy white or blue flowers in early spring.	each 30c	.85
Sylvestris. Pure white fragrant flowers. Height 1½ ft. Europe and Southwestern Asia.	each 25c	.65
ANTENNARIA—Canadensis. Fine silvery grey foliage with white closed flowers on 4 in. stems. Useful for carpeting and paving. North America.	each 25c	.65
AQUILEGIA—Flabellata Nana. Beautiful dwarf species with pure white flowers. Japan. One of the best. Shade and leafmold.	each 35c	1.00
ARABIS—Sun or partial shade.		
Alpina. Oblong leaves. White flowers. Europe.	each 25c	.65
Alpina Fl. Pl. Double flowering white variety. Europe. ea.	35c	1.00
Alpina Nana Compacta. Pure white flowers. Height 6 in.	each 30c	.85
Procurrens. A valuable plant with small close growing clustered green foliage forming wide mats. White flowers.	each 40c	1.10
ARCTOSTAPHYLOS—Uva Ursi. Low evergreen with white flowers followed by red berries. Rare and fine. ...	each 50c	1.40
ARENARIA		
Balearica. Dainty carpeting plant with white flowers.	each 30c	.85
Grandiflora. Large pure white flowers in spring. Height 6 in. Europe.	each 30c	.85
Laricifolia. Large white flowers. Height 6 in. Switzerland	each 35c	1.00
Montana. Close tufts covered with charming white flowers in early spring. A valuable rock plant.	each 30c	.85
ASTER—Alpinus Albus. A fine variety of dwarf Aster with white flowers. Height 8 in. Europe and North America. Sandy loam in full sun.	each 25c	.65
ASTILBE—Simplicifolia. Dainty, dwarf plant with glossy leaves and short spires of fluffy white or pink flowers. 6 in. high. Japan. Very fine.	each 50c	1.40

WHITE (CONTINUED)
SPRING AND EARLY SUMMER

BELLIUM		3 for
Bellidioeides. Dainty white miniature daisy tinted pink. each 40c	1.10	
Minutum. Neat small-flowered white Alpine Daisy. each 35c	1.00	
Nivale. Slightly taller growing variety than the above with charming white flowers. each 40c	1.10	
CERASTIUM—Tomentosum. Masses of grey foliage and white flowers. each 25c	.65	
COTONEASTER		
Dammeri. (Better known as C. Humifusa) Splendid ground cover for steep slopes; also valuable for trailing over rocks. Pretty glossy leaves and large flowers followed by coral red berries. China. each \$1.00		
Dammeri Radicans. Fine for trailing over large stones or banks. A beautiful mat forming type of Cotoneaster. One of E. H. Wilson's finds in China. Entirely prostrate, rooting from the branches. The small evergreen leaves are intensely shiny. Large pure white flowers followed by bright red berries. each \$1.50		
DIANTHUS—Require full sun in sandy loam.		
Deltoides Albus. Mat-forming variety. White flowers with dark rose eye. North America. each 25c	.65	
Petraeus. New. Mat-forming variety with sharp pointed green leaves. Fragrant white flowers about ¾ in. across. Eastern Europe. each 35c	1.00	
Squarrosus. New. A small edition of Dianthus Superbus with pure white fragrant flowers. each 35c	1.00	
Sundermannii. Rare Macedonian species. Large white flowers each 50c	1.40	
DICENTRA—Oregana Glauca. Silvery foliage and glistening white flowers. Full sun. Rare and fine. North America. each 75c	2.00	
DIPSACUS—Inermis. New. Prickly herb of thistle-like aspect. White flowers. Europe. each 35c	1.00	
DRABA		
Fladnizensis. Forms cushions 2 to 3 in. high. Basal leaves and white flowers. High alpine. Sun. each 35c	1.00	
Hirta. Narrow leaves and milk-white flowers. Height 6 in. Sub-Arctic Eurasia. each 35c	1.00	
Johannis. Loose mats. Small white flowers. New. Supply limited. each 50c	1.40	
DRYAS		
Octopetala. Flat evergreen carpets of very small Oak-like leaves with white Anemone-like flowers during spring and summer. It flowers most freely in very limy soil. each 75c	2.00	
Sundermannii. Mat forming foliage. Fine white flowers followed by attractive fluffy seed pods. each 60c	1.65	
ERICA—Vulgaris Searlei. Lovely dark green foliage. White flowers. Partial shade and acid, peaty soil. each 50c and \$1.00		
ERODIUM—Amanum. Soft blue-grey foliage with white blossoms having yellow centers. Very effective. Full sun. Sandy leaf soil and loam. each 75c	2.00

IBERIS

- Little Gem.** Dwarf species of upright habit. Neat heads of pure white flowers. **each 35c** **1.00**
- Sempervirens.** Spreading evergreen mats. Pure white flowers. **each 30c** **.85**
- Snowflake.** Glistening white flowers. Very fine. **each 30c** **.85**

JEFFERSONIA—Diphylla. Divided shield-shaped leaves, blue-grey underneath. White flowers on foot high stems in May. North America. Very fine. **each 75c** **2.00**

LEIOPHYLLUM — Buxifolium Prostratum. Prostrate and densely branched. Small white or pink flowers in spring. Mountains of North Carolina and Tennessee. Particularly fine. **each 75c and \$1.00**

LEONTOPODIUM—Full sun, poor soil.

- Alpinum.** (Edelweiss) White flannel flowers. 6 in. Pyrenees and Alps. **each 30c** **.85**
- Sibiricum.** Oblong-linear webby leaves. Large flowered form from Russia. **each 30c** **.85**

LEWISIA

- Eastwoodiana.** Foliage like *Lewisia Columbiana*. Cluster heads of many small white flowers. New and rare. Good drainage and partial shade, sand, leaf soil and good loam. **each 75c** **2.00**
- Nevadensis.** One of the deciduous species with a rosette of basal linear leaves. Flowers white tinted lavender. **each 50c** **1.40**
- Oppositifolia.** Profusion of white cup-like flowers. **each 50c** **1.40**

LIBERTIA—Elliott's Variety. New. Clusters of lovely ivory white flowers. April and May; sometimes in late summer. Requires sheltered position in light sandy soil. Full sun. **each 50c** **1.40**

LILIUM—Phillipense Price's Variety. Fragrant white flowers tinged with green. 10 in. tall. Philippine Islands. **each 60c** **1.65**

MARGYRICARPUS—Setosus. (Pearl Berry). Trailing evergreen shrub with inconspicuous flowers followed by large pearly white berries. Height 1 ft. South America. **each \$1.00** **2.75**

MITCHELLA — Repens (Partridge Berry). Evergreen useful in the rock garden as a ground cover for shady moist situations. White flowers followed by scarlet fruit. North America. **each 25c** **.65**

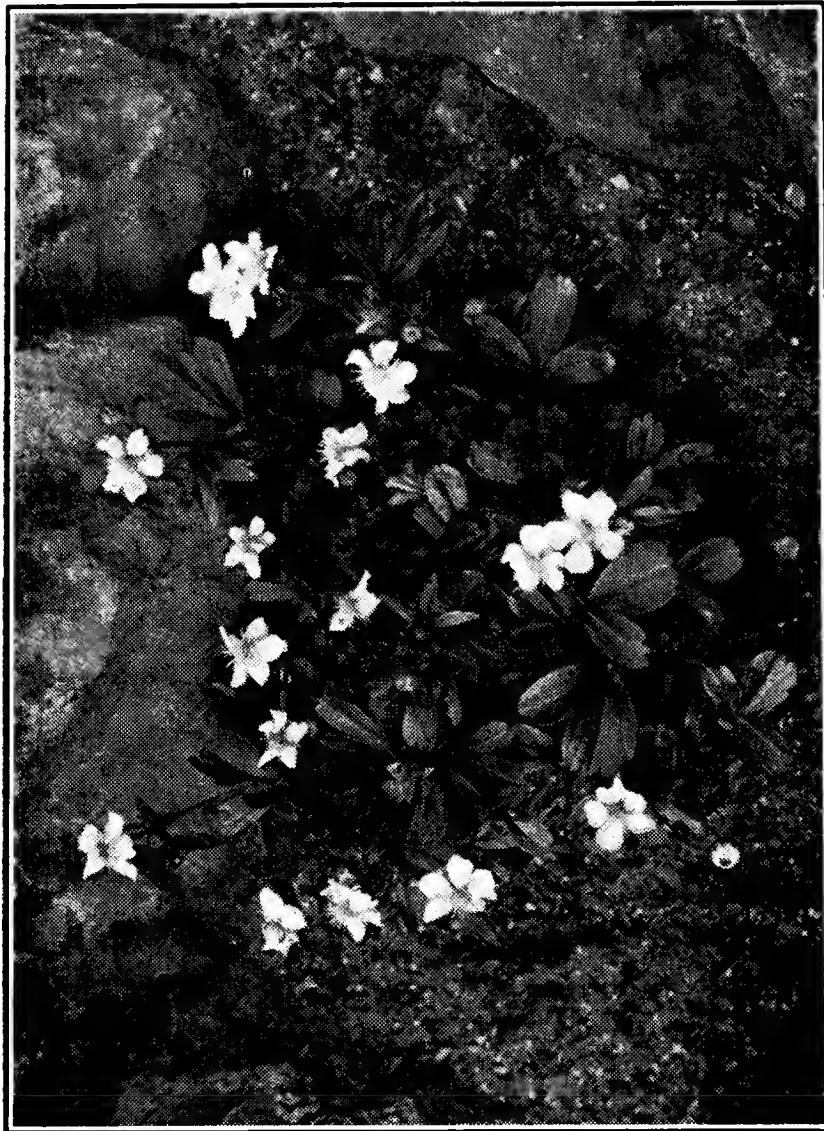

OMPHALODES—Verna Alba. Large heart shaped leaves. Masses of white forget-me-not like flowers. **each 50c** **1.40**

PHLOX

- Brittonii Alba.** Lovely new variety. Tiny bushlets covered with star shaped white flowers. Compact habit. .. **each 50c** **1.40**
- Hoodii** (Planitiarum). Very neat and compact with needle-like leaves. Large white blossoms. Height 4 in. .. **each 30c** **.85**
- Subulata Nelsoni.** White blossoms tinted lavender. **each 25c** **.65**
- Subulata The Bride.** White flowers with pink eye. .. **each 25c** **.65**

- Glutinosa.** Rare. Tufts of narrow dark green leaves. Beautiful violet flowers in clusters. Height 4 in. Acid soil. Supply limited. **each \$1.00** 2.75
- Juliae.** Miniature species with lovely rosy lavender flowers. Early flowering. **each 50c** 1.40
- Juliae Hybrids.** A hybrid of the above with lovely glowing purple flowers. Exceptionally fine. **each \$1.00** 2.75
- Nutans.** Supply limited. Narrow, hairy leaves and densely powdered stamens carrying an umbel of large lavender blue flowers. Very beautiful. **each \$1.00** 2.75
- Sino Purpurascens.** Deep purple flowers in loose trusses. **each 75c** 2.00

- PULMONARIA — Saccharata.** Handsome silver and green marbled foliage. Rich blue flowers. 12 in. high. ... **each 35c** 1.00

- RAMONDIA—Pyrenaica.** Deep green crinkly leaved rosettes. Large lilac blue flowers with golden centers. Very choice. Shade. **each \$1.25**

SISYRINCHIUM

- Gramineum.** Grassy tufts with tiny sword-like leaves. Delicate blue flowers. **each 40c** 1.10
- Tanacetifolium.** A fine type. Grassy foliage and bright blue flowers. **each 40c** 1.10
- Varians.** Light blue flowers. Grassy foliage. North America. Height 1 ft. **each 35c** 1.00

- SOLDANELLA—Alpina.** Dwarf alpine. Lovely violet bells on 3 in. stems. Blooms in very early spring. **each \$1.00** 2.75

SYNTHYRIS

- Rotundifolia.** Spikes of pale blue flowers. **each 50c** 1.40
- Sweetseri.** Beautiful foliage and rich violet colored flowers on 4 in. stems. Very fine. North America. **each 90c** 2.45

- THLASPI—Violascens.** Flowers of pale lilac. Mountains of Asia Minor. Height 4 in. Rare and fine. **each 40c** 1.10

VERONICA

- Filiformis.** Trailing evergreen. Flowers of blue with white lip which almost hide the foliage in early spring. Asia Minor. **each 30c** .85
- Gentianoides.** Large tufts of foliage from which rise large pale blue flowers. A very fine form from Europe. **each 30c** .85
- Pectinata.** Mats of velvety grey leaves covered with lovely azure blue flowers. Spring. **each 30c** .85
- Prostrata.** Lovely trailing species. Brilliant blue flowers. Europe and Asia. **each 30c** .85
- Quateriana.** Fine form with beautiful blue flowers. **each 35c** 1.00
- Repens.** Trailing species. Large pale blue flowers. Corsica. **each 30c** .85

Collina. Tufts of scalloped foliage. Racemes of lovely deep blue flowers. Height 12 in. Caucasus.	each 40c	1.10
Excisa. Pretty alpine species. Myriads of violet bells. 6 in.	each 50c	1.40
Fenestrellata. Close-growing form. Large lavender open flowers. Long stamens.	each 50c	1.40
Garganica. Dwarf trailer. Flowers blue with white center. Italy.	each 35c	1.00
Garganica Hirsuta. Velvety leaves. Pale blue flowers. 4 in.	each 40c	1.10
Glomerata Acaulis. Pretty dwarf form with clusters of rich violet flowers. (Choice.	each 40c	1.10
Istriaca. Pretty dwarf species with a profusion of pale blue starry flowers. June and July.	each 60c	1.65
Latifolia. Toothed leaves and lavender blue flowers. Europe and Asia.	each 35c	1.00
Leutweinii. A monocarpic. Forms a beautiful rosette of scalloped leaves, the 12 in. flower stalk bearing very large pale blue flowers.	each 50c	1.40
Longifolia. New. A rare dwarf species from the Pyrenees. The foliage forms rosettes of long narrow leaves. The blossoms are a beautiful violet color appearing in June and July. Very fine.	each 60c	1.65
Macrorrhiza. Tufted ovate toothed leaves. Graceful showers of violet bells.	each 50c	1.40
Marchessetti. New. Purple bells, very free flowering. Height 9 in. Fine and rare.	each 50c	1.40
Muralis. Close growing spreading foliage. Tubular violet flowers. Height 9 in. Dalmatia.	each 40c	1.10
Norman Grove Seedling. Lovely rare hybrid. Ht. 3 in.	each 50c	1.40
Persicifolia. Violet blue flowers in terminal racemes. Europe.	each 30c	.85
Petiolata. The color ranges from light lavender to deep blue and purple. Long flowering season. Height 12 in.	each 35c	1.00
Pilosa. Foliage tufted. The flower stems rise to 6 in. each bearing one enormous broad bell of blue.	each 50c	1.40
Pseudo-Raineri. A charming little plant with very large purple blue flowers. June and July. Height 3 in. ..	each 60c	1.65
Pulla. Small clustered foliage of glossy green. Very slender stems and purple bells.	each 40c	1.10
Pulloides. Wide open purple bells. A choice alpine.	each 40c	1.10
Pusilla. Dwarf species with dainty bells of pale blue. 4 to 6 in. A gem for rock crevices. Europe.	each 50c	1.40
Pusilla Lissadell. A fine hybrid with deeply cut foliage and a profusion of blossoms.	each 50c	1.40
Raineri. Dwarf spreading habit. Ash-grey foliage and lavender blue flowers. One of the choice alpine from Northern Italy.	each 75c	2.00
Robsonii. New. A hybrid between Carpatica Var. Turbinata and C. Scheuchzeri with deep blue flowers.	each 75c	2.00

SUMMER AND EARLY AUTUMN

CAMPANULA

3 for

- Rotundifolia** (English Harebell). A slender graceful plant with beautiful blue flowers. each 30c .85
- Rotundifolia Var. Olympica** (Harebell). Large beautiful novelty with pale blue flowers. Slender graceful habit. each 50c 1.40
- Sarmatica**. Oblong grey tomentose leaves. Nodding pale blue flowers. Height 2 ft. each 40c 1.10
- Saxatilis. New.** Tufts of oblong leaves. Rich sapphire tubular flowers. Rare. Crete. each 50c 1.40
- Speciosa. New.** A variety of *Glomerata* with larger flowers. A very showy type. each 40c 1.10
- Sub-Pyrenaica**. A form of *C. Rotundifolia*. Long narrow foliage and a profusion of lovely blue bells. each 40c 1.10
- Thessalica**. A charming variety with lovely blue star-shaped flowers. Fine. each 40c 1.10
- Thrysoides Carniolica**. A charming variety with lavender-blue star-shaped flowers. Very fine. each 40c 1.10
- Turbinata**. Violet-blue cup-like flowers, 1¼ in. across. Dwarf. each 40c 1.10

COMMELINA—Crispa. Semi-creeping plant with jointed stems and bright blue flowers. All summer. A valuable addition to the rock garden on account of its continuous bloom. ea. 35c 1.00

CONVOLVULUS—Mauritanicus. Trailer. Blue flowers. All summer. Very fine. each 50c 1.40

CRAWFURDIA — Trinervis (Creeping Gentian). Pale blue Gentian flowers followed by attractive red berries in winter. Japan. Sandy leaf soil in partial shade. Summer, autumn. each 75c 2.00

CYANANTHUS—Longiflorus. An exceedingly choice and rare plant from the mountains of Yunnan. Rich blue flowers. each \$1.00 2.75

DASYSTEPHANA—Porphyrio (*Gentiana Porphyrio*). Similar to *G. Acaulis* only a taller growing type. Late fall bloom. North America. each 40c 1.10

DELPHINIUM

Cashmirianum. Dwarf form. Blue flowers tinted with lavender, blooming over a long period. Sun or shade. each 35c 1.00

Chinense. Dwarf form with feathery foliage. Intense blue flowers. each 35c 1.00

Tatsiense. Pretty species with brilliant blue flowers. China. Rare. each 40c 1.10

Tom Thumb. Fine dwarf hybrid. Neat habit of growth and long succession of large lavender blue flowers. .. each 35c 1.00

DRACOCEPHALUM

Japonicum. Large lavender blue flowers on erect stems. ea. 35c 1.00

Speciosum. New. Purple flowers in dense heads. June and July. Height 12 in. Himalayas. each 50c 1.40

EDRAIANTHUS

Pumilio. Dainty blue flowers. An excellent rock plant. ea. 50c 1.40

Tenuifolius. Narrow foliage. Blue flowers in dense bracted heads. Height 6 in. Fine. Dalmatia. each 50c 1.40

EPILOBIUM

Amplectens. New. Bright green lance-like foliage. Summer. each 50c 1.40

Macropus. New. A creeping form with slender stems and charming purple flowers. Shade and leaf soil. Summer. each 50c 1.40

ERICA—Stricta. Dull green, spiny foliage. Tiny bell-shaped rosy purple flowers. each 50c and \$1.00

ERIGERON—Valuable subjects for the rock garden. Sandy soil. Full sun.

Caucasicus. A good dwarf form with a profusion of lavender flowers. each 30c .85

Compositus. Tufted plant with dense foliage. White or violet flowers. North America. each 50c 1.40

Elatior. Lilac or purple flowers, 1½ in. across. Long season of bloom. North America. each 35c 1.00

Glabellus. Violet or purple flower heads, Height 1½ ft. North America. each 25c .65

Glaucus (Seaside Daisy). Solitary heads of lilac or violet flowers, 1½ in. across. each 25c .65

Hybridus. A fine hybrid form with large deep lavender flowers. each 30c .85

Macranthus. Large purple flowers. Very effective for the background. each 40c 1.10

Mesa Grande. Long narrow rayed daisies of cornflower blue. 18 in. Summer. each 30c .85

Multiradiatus. Supply limited. **New.** A fine form from the Himalayas. Grey foliage and large mauve flowers. each 40c 1.10

Pumilus. New. Tufts of grey-green foliage. Mauve flowers with deep golden centers. each 35c 1.00

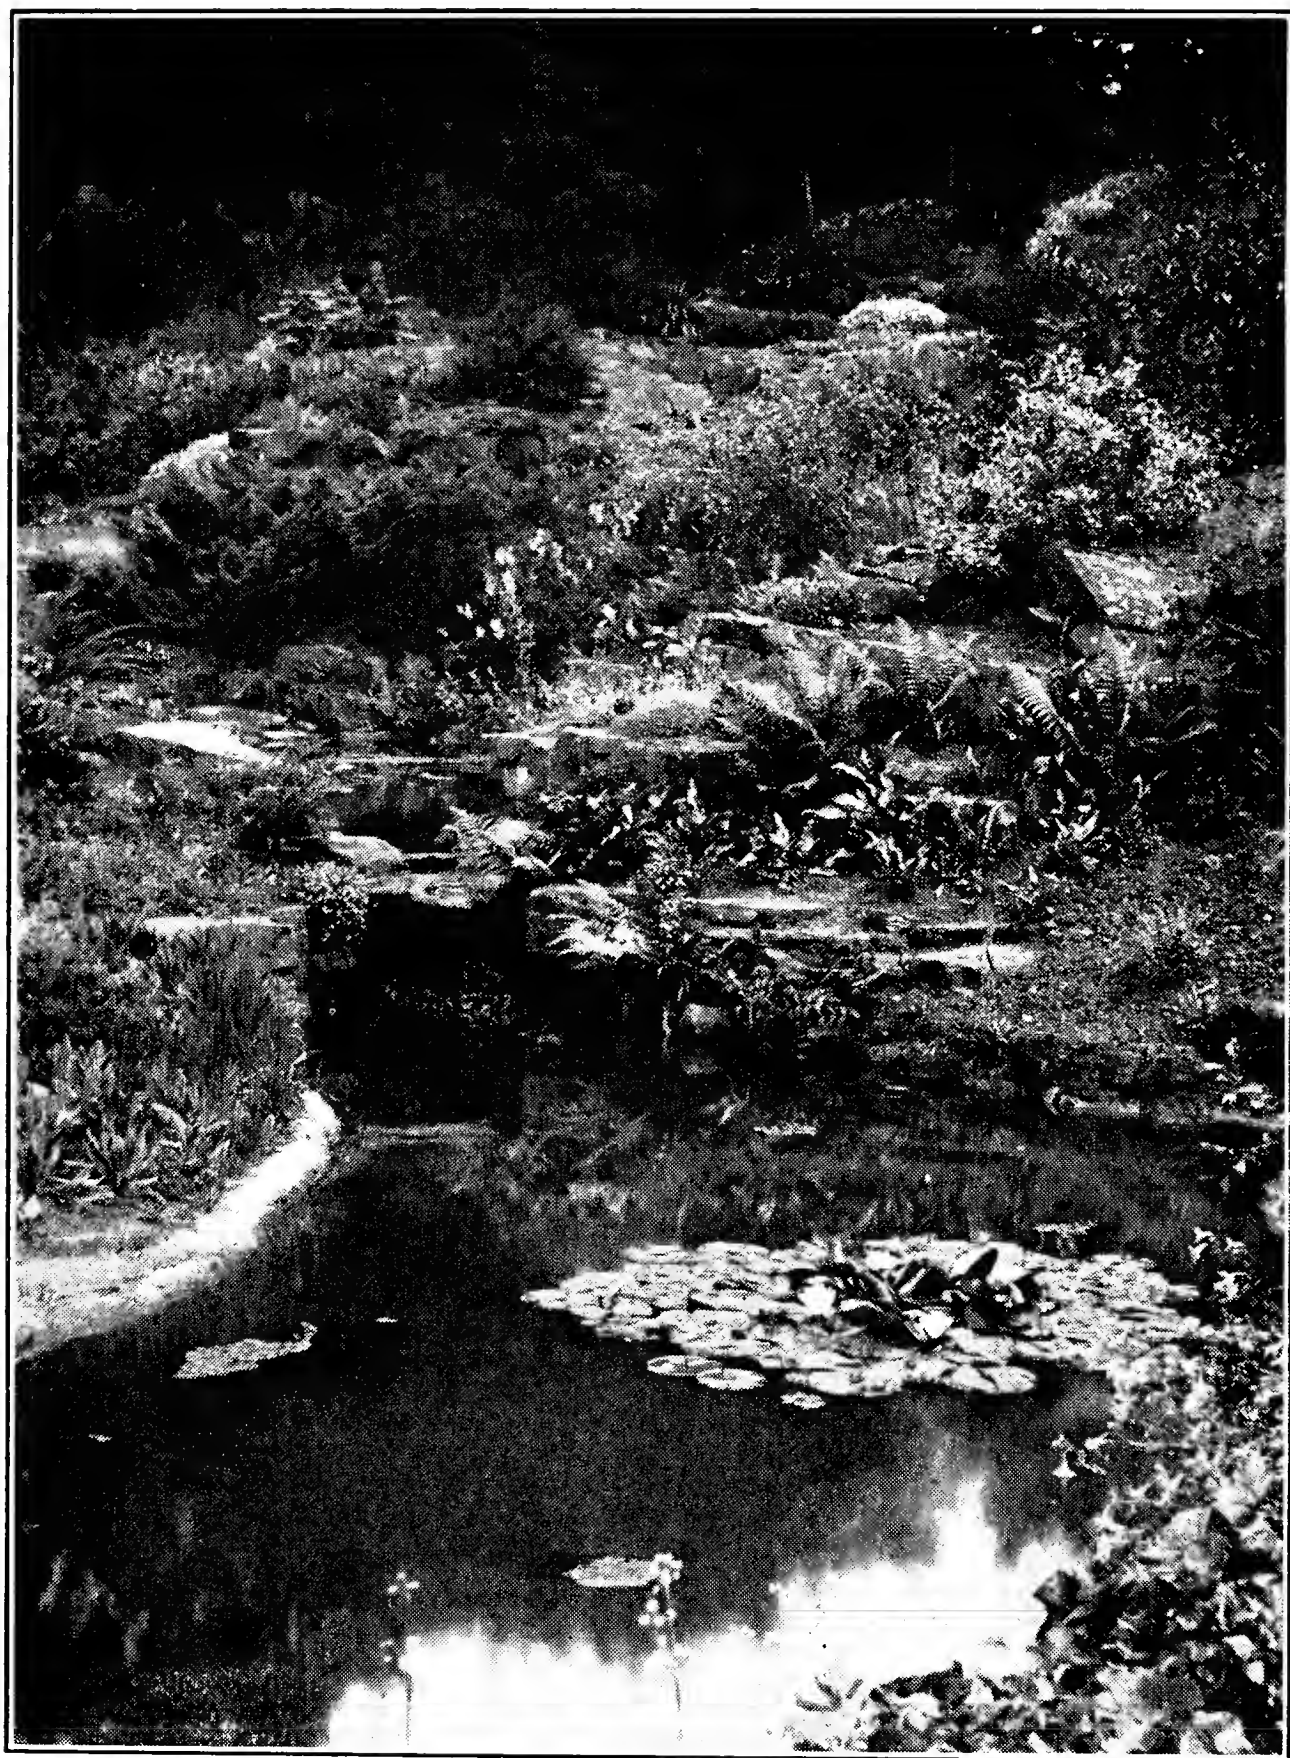

Salsuginosus. Purple or violet flowers. 18 in. high. North America. each 30c .85

Trifidus. Native of North America. Tufts of small hairy foliage and delicate daisy-like flowers of pale lavender on 2 to 3 in. stems. May to August. Very rare. each 50c 1.40

Uniflorus. New. A good type. Large mauve flowers with golden centers. Slightly woolly foliage. High Alps. each 35c 1.00

ERODIUM—Macradenum. Tufts of soft green ferny leaves. Pale lavender pink flowers with large purple blotches on two upper petals. Sun. Pyrenees. each 75c 2.00

GEOPRUMNON—Crassicarpum (Groundplum). Low trailing plant with pinnate leaves and clusters of purple flowers. The inflated seed-pods are very attractive. each 35c 1.00

GENTIANA

- Altaica.** Magnificent species making a dense tuft of oblong pointed leaves from which rise countless stems half inch long each carrying a single large violet blue trumpet shaped blossom. **each 75c** 2.00
- Andrewsii.** Closed Gentian. Purplish blue flowers. Height about 2 ft. North America. **each 25c** .65
- Lagodechiana.** Highly satisfactory plant and one of the easiest to grow. Large pale blue flowers. Fine for the rockery. July and August. **each 60c** 1.65
- Phlogifolia.** Phlox-leaved variety from Transylvania, with fine Gentian flowers. **each 75c** 2.00
- Purdomi.** Violet flowers on procumbent stems. Narrow green leaves. Very fine. Tibet. **each 75c** 2.00
- Rochellii.** Large blue trumpet-shaped blossoms. Dense evergreen foliage. **each 75c** 2.00
- Saponaria.** Flowers of brilliant blue. Stems 9 to 12 in. high. Moisture loving species. **each 60c** 1.65
- Septemfida.** Large flowers of clear soft blue. 9 in. stems. From the Caucasus. Partial shade and peaty soil. **each 75c** 2.00

GERANIUM—Sun and sandy soil.

- Pratense.** Large violet blue flowers; 18 in. high. **each 30c** .85
- Pyrenaicum.** Supply limited. Rounded leaves; purple flowers. Height 12 in. Native of Great Britain. Rare. May to August. **each 60c** 1.65
- Wallichianum.** Prostrate perennial. Beautiful purple flowers. Himalayas. Rare. **each 60c** 1.65

GLOBULARIA

- Bellidifolia. New.** Charming evergreen Alpine plant with pretty fluffy heads of softest blue. **each 40c** 1.10
- Nudicaulis. New.** Fluffy heads of deep blue flowers on 6 in. stems. Very fine. Shade and limy soil. Europe. .. **each 50c** 1.40
- Trichosantha.** Globe-like heads of deep blue flowers. A very fine alpine. **each 35c** 1.00

HEDYSARUM—Sikkimensis. New. Grey-green foliage. Attractive rosy-purple flowers. Height 6 to 9 in. **each 50c** 1.40

IRIS — Dichotoma. Fan shaped foliage. Branching stems covered with white and lavender flowers. August and September. Very fine and unusual. **each 50c** 1.40

JASIONE

- Humilis.** Free flowering variety. Short stalked heads of lovely blue flowers. Height 4 in. Pyrenees. **each 50c** 1.40
- Montana.** Heads of small delicate blue flowers on slender stems. Europe. **each 35c** 1.00

LACTUCA—Lessertiana. Lance-shaped foliage. Neat 12 in. habit. Freely branching. Large lavender-blue flowers. First time listed. **each 75c** 2.00

BLUE, LAVENDER AND PURPLE
SUMMER AND EARLY AUTUMN

3 for

LAMIUM—Maculatum. Beautiful evergreen plant with variegated leaf. Procumbent stems ending in flower heads of lavender. Continuous bloomer. Sun or shade. North America. each 35c 1.00

LAVENDULA

Atropurpurea Nana. Silvery grey foliage with tiny spikes of purple-blue flowers. Very fine and dwarf. each 50c 1.40

Vera. Shrublet with fragrant foliage and lavender flowers. Mediterranean region. each 50c 1.40

LIATRIS

Punctata. Stalks covered with fringy lavender flowers. A charming dwarf for high spots in the rock garden. Mid-summer bloom. each 50c 1.40

Scariosa. Oblong lanceolate leaves. Lovely blue-purple flowers. North America. Dwarf form. each 30c .85

LINARIA

Alpina. Tiny. Trailing blue-grey foliage. Flowers of violet and orange. 3 in. All summer. Rare. Alps. each 40c 1.10

Cymbalaria (Kenilworth Ivy). Trailing species with beautiful foliage covered all spring and summer with dainty little orchid-like flowers. each 35c 1.00

Faucicolor. New. Prostrate habit. Small glaucous blue-green leaves. Large brilliant violet-blue flowers. Long season of bloom. Rare. The first time this plant has been listed. each 50c 1.40

Minor. New. Hardy annual which reseeds itself. Tiny trailing species with small yellow and mauve flowers. Switzerland. each 30c .85

LINUM

Alpinum. Pretty Flax with large blue flowers. 6 in. Europe. each 35c 1.00

Collinum. Low growing species. A profusion of soft blue flowers all summer. each 50c 1.40

Narbornense. Profusion of rich blue flowers, 1½ in. across. All summer. Very fine. each 30c .85

Perenne. Delicate blue-grey foliage. Pretty pale blue flowers on slender stems. June to September. each 30c .85

LITHOSPERMUM

Graminifolium. Long, narrow grass-like foliage. Light blue flowers. 12 in. Rare and lovely alpine. Northern Italy. each 75c 2.00

Petraeum. New. and rare. Neat woody bushlets covered with narrow silvery leaves and a profusion of pale blue blossoms. Greece. each 75c 2.00

Prostratum Heavenly Blue. Fine sub-shrubby prostrate species. Deep sky-blue flowers. each 75c 2.00

MENZIESIA — Polifolia. Compact evergreen shrub with racemes of large purple flowers. each 50c and \$1.00

MICROMERIA

Dalmatica. New. Herb with attractive foliage and lavender flowers. Height 10 to 12 in. Fragrant. each 25c .65

Juliana. Wiry stems with small fragrant leaves resembling *Satureia* though smaller and not so spreading. 8 in. each 30c .85

NEPETA

Mussini. (Catmint). Long racemes of lavender flowers and silvery grey leaves. About 1 ft. tall. each 30c .85

Nuda. Upright habit with silvery grey leaves, and racemes of violet flowers. Europe. each 35c 1.00

Souv. Andre Chaudron. Large deep blue flowers on 18 in. stems. each 40c 1.10

Ukranica. Spikes of dark blue flowers. 12' to 18 in. tall. June to September. each 40c 1.10

PENTSTEMON

Amethyst Gracilis. New. Fine form with large true amethyst colored flowers. each 50c 1.40

Angustifolia. A dwarf with grey-green foliage. Brilliant sky-blue flowers sometimes tinged with pink. each 60c 1.65

Cardwellii. Small thick evergreen leaves. Short spikes of bright purple flowers. each 50c 1.40

Erianthera. Showy racemes of large blossoms of warm lavender made more attractive by bearded tongues of deep yellow. Buds pink. Lime. Sun. each 75c 2.00

Gracilis. A very desirable small species covered with bloom from July to September. Deep lavender flowers. each 50c 1.40

Menziesii. An excellent plant having tiny evergreen foliage which follows the contour of a rock as closely as Ivy. A profusion of lavender-blue flowers in late spring. each 60c 1.65

Menziesii Var. Davidsonii. A fine hybrid of the above. ea. \$1.00 2.75

Procerus. Lavender blue flowers covering procumbent stems in late summer and autumn. 8 in. Very fine. North America. each 35c 1.00

Pubescens. Flowers from July to September. Fine foliage. The color of the flowers range from violet and purple to white. North America. Height 18 in. each 35c 1.00

PLATOCODON—Mariesii. Very fine dwarf variety. Enormous deep blue flowers. Full sun. Midsummer. Asia. .. each 25c .65

PLUMBAGO Larpentae. A lovely plant covered with azure blue flowers in early autumn. Height 9 in. each 30c .85

PRUNELLA

Grandiflora. Pretty dwarf plant with deep violet blue flowers. Europe. each 35c 1.00

EPIMEDIUM—Mixed. Lovely foliage. For shady spots. Mixed colors. Peat and moisture.	each 40c	1.10
LUPINUS—Finest mixed.	each 35c	1.00
PAPAVER—Alpinus. Tufts of finely cut foliage. Flowers of white, rose, yellow or orange. Dwarf species.	each 30c	.85
POTENTILLA—Double Mixed. Mixture of the best double varieties.	each 25c	.65
PRIMULA		
Acaulis Hybrids. A fine new hybrid with extra large flowers in various shades of rose, blue and yellow.	each 35c	1.00
Auricula Hybrids. A select strain of the well-known Auricula. A very fine mixture.	each 35c	1.00
Cashmeriana Hybrids. Large globular heads of flowers ranging through mauve to purple. 10 in. Himalayas.	each 35c	1.00
Grandiflora Hybrids. A fine strain with particularly large flowers in various colors.	each 40c	1.10
Munstead Strain. Magnificent strain of Polyanthus Primroses. Very large flowers in various colors.	each 30c	.85
Veris Elatior Polyanthus. A splendid strain of gorgeous colorings.	each 30c	.85
Veris Hybrids. Hybrids of yellow Cowslip with clustered drooping flowers ranging in color from crimson to yellow and pure white. Spring.	each 25c	.65
VIOLA—Cornuta Hybrids. A mixture of the best Cornuta varieties.	each 30c	.85

FOLIAGE PLANTS

		3 for
ACAENA		
Argentea. Blue grey foliage and red burr-like flowers Good carpenter. New.	each 50c	1.40
Glauc. Good carpenter for spring bulbs. Finely cut blue foliage. Sun or shade.	each 35c	1.00
Microphylla. Bronze-green leaves with crimson fruits. Sun or shade.	each 40c	1.10
Novae Zealandiae. Trailing bronze foliage. Tiny scarlet burrs.	each 50c	1.40
Ovalifolia. Lovely bronze green foliage. Creeping form. New.	each 50c	1.40
Pinnatifida. A native of Chile. New and rare.	each 50c	1.40
BERBERIS—Concinna. Deciduous species with very beautiful leaves. Silvery white reverse. Carmine red fruits, nearly as large as cherries. A fine type. India. New.	each \$1.25	3.50
COTULA—Squalida. Forms a carpet of minute ferny evergreen foliage. 3 in. Shade. New Zealand.	each 30c	.85

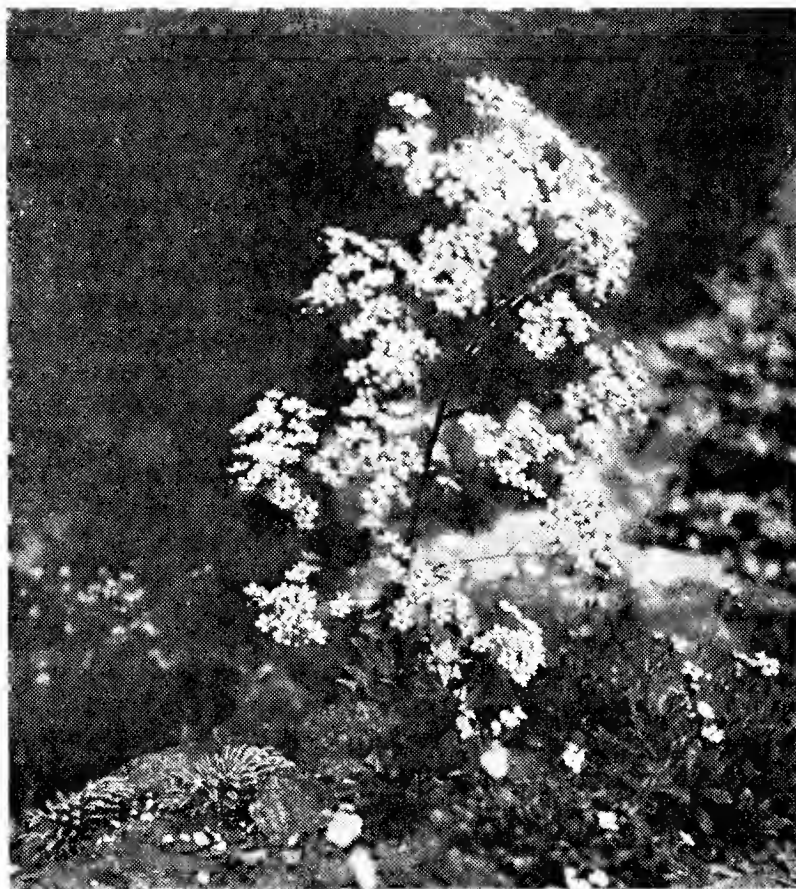

EUONYMUS

- Japonicus Aureus.** Brilliant green foliage with golden edges. A fine shrub for the background. each \$1.00
- Kewensis.** Very tiny evergreen trailer with small round green leaves. Fine for rock garden. each 50c 1.40
- Radicans Acutus.** Climbing evergreen with small leaves. Japan. each 75c
- Radicans Variegatus.** A climber with attractive grey and white variegated leaves. May be cut back and used over large rocks. Very effective planted at the base of trees. each 75c
- Speciosus.** A tiny dwarf shrublet with dark green foliage. Very unique and lovely. New and rare. each \$1.00
- Sp. Var. Silver Queen. New.** Very rare. A miniature shrublet of compact form with variegated foliage. This is the first time this interesting and beautiful little plant has been listed in a catalogue in this country. A great addition to the rock garden. each \$1.50
- FESTUCA—Glauca.** Dwarf. Blue grey-tufted grass. Very pretty for rock garden and useful around pools. 8 in. ... each 25c .65
- HEDERA**
- Baltica Variegata.** Miniature climbing variegated Ivy. Perfectly hardy. Very showy on walls or climbing over large rocks. each 75c 2.00
- Conglomerata.** Dwarf Ivy with tiny twisted foliage. each 75c 2.00
- (Heart Shaped Ivy).** A new and beautiful form of Ivy with dark green heart shaped leaves. each 50c 1.40
- Helix Pedata.** (English Ivy). each 50c 1.40
- MUEHLENBECKIA—Nana.** A tiny creeping plant with foliage resembling Maidenhair fern. From New Zealand. 2 to 3 in. each 30c .85
- PELLEA—Densa.** (Cliff Brake). Tiny fern. Partial shade or sun. Delightful when used with bulbs. each 50c 1.40
- PIERIS—Nitida.** Evergreen shrub turning to bronze in the autumn. Red flowers in clusters. June and July. Native of North America. Needs winter protection. each 75c 2.00
- SIBBOLDIA — Procumbens Grandiflora. New.** Pale green carpeter. Does well in cool, shady and well drained place. each 35c 1.00

SAXIFRAGA

SAXIFRAGA—(Saxifragaceae). No rock garden is complete without a collection of these interesting and beautiful alpine. Their requirements are good drainage and a soil composed of leafmold, loam, a little well decayed cow manure and sand. All types and varieties require partial shade in the Eastern section of this country. They should receive a good top dressing of the above mentioned soil mixture in the spring and autumn, and a light covering of salt hay during the winter.

EUAIZOONIA GROUP—(Encrusted Varieties). These form rosettes of narrow and spatulate shaped leaves, heavily encrusted with lime in most cases, and are extremely ornamental in the rock garden.

Saxifraga—Cotyledon Pyramidalis

		3 for
Aeizoon Alba. White blossoms, 4 to 6 in.	each 30c	.85
Aeizoon Rosea. Sprays of lovely pink blossoms. 9 in. Rosy form of above.	each 35c	1.00
Aeizoon Balcana. Pale green leaves. Sturdy red stems about 5 inches high bearing large flowers densely covered with crimson dots.	each 40c	1.10
Aeizoon Flavescens. Yellow flowers. Choice.	each 35c	1.00
Aeizoon Minima. Silvery miniature foliage. White flowers. One of the best of the very small types. Very scarce. ea.	40c	1.10

3 for

- Altissima.** Handsome wide rosettes of blue-grey, silver-beaded leaves. Creamy white flowers in branching pyramids of blossom. each 50c
- Cartilaginea.** Rosettes of sharp-pointed leaves. Pink or white flowers produced in sprays 6-9 in. Rare, Asia Minor. ea. 50c 1.40
- Cochlearis.** Tiny silvery rosettes of tongue-shaped leaves. White flowers. Fine. each 60c 1.65
- Cochlearis Minor.** Tiny domes of silvered rosettes. White flowers. each 75c
- Cotyledon Caterhamensis.** 3 ft. sprays of white flowers heavily spotted with red. each 75c
- Cotyledon Pyramidalis.** Broad-leaved rosettes; large spires of pure white flowers, flecked with pink. each 75c
- Elliott's Silver.** Splendid hybrid with heavily silvered rosettes in close clustered form. each 50c
- Engleri.** Rosettes of silvery leaves. Plumes of white flowers. each 75c
- Gaudini.** Large leathery rosettes, often tinged with red. Sprays of pink spotted flowers. each 50c
- Hostii.** Handsome rosettes of long leaves with toothed margins. Panicles of creamy white flowers spotted with pink. Europe. each 50c
- Lingulata Superba.** Mats of large and out-curved leaves, long and narrow with a beautiful edge of silver beading. Tall sprays of white stars. each 75c
- Lingulata Albida.** Distinct form. White flowers. each 75c
- Lingulata Bellardi.** Rare treasure. Beautiful white flowers. each 50c
- Longifolia.** Handsome rosettes of silver grey. Large spires of white blossoms from 2 to 3 ft. tall. "Queen of the Saxifrages." Pyrenees. each \$1.00
- Macnabiana.** Fine spikes of white flowers heavily spotted with pink dots. each 35c 1.00
- Mixed Encrusted Varieties.** each 30c .85
- Pyrenaica.** Pointed leaves. Short plumes of white flowers. each 40c 1.10
- Tumbling Waters.** A rare and beautiful variety with a profusion of white flowers. each 75c
- KABSCHIA GROUP—(Cushion Rockfoils).** Small spiny foliage in shades of lovely blue grey, to be used in moraine, or crevice between two rocks. All are early bloomers, and like warm, half sunny situation, in gritty soil and leafmold.
- Apiculata.** Mats of green spiny foliage. Yellow blossoms. Early Spring. each 40c 1.10
- Apiculata Alba.** White form of the above. each 40c 1.10

- Boryi.** Rosettes of short, spoon-shaped leaves. Large white flowers borne on 1½ inch stems. Very fine. each 75c
- Ferdinandi-Coburgi.** Neat cushions of silvery-grey. Bright yellow flowers. each 40c
- Godseffi.** Blue-grey rosettes. Yellow flowers. each 50c
- Griesbachii Wisley Var.** Blue grey rosettes. Red blooms. Interesting and rare. each 75c
- Petraschii.** Tight silvery cushions. Large white flowers. Choice. each \$1.25
- Sancta.** Wide masses of short green leaves with broad edges of silver beading. Stems of 2 or 3 in. carrying loose trusses of bright yellow flowers. each 75c

3 for

1.10

Saxifraga Petraschii

DACTYLOEIDES GROUP—(Mossies). These form cushions and mossy mats. They are especially nice for place in damp, shady part of rock garden. They like plenty of leafmold and appreciate an extra mulch in spring and fall.

- Affinis.** (The Dovedale Moss). Emerald green carpets and profusion of white flowers in spring and early summer. Rapid growth. Native of Western Europe. each 35c
- Ceratophylla.** Mats of shining foliage. Large, pure white flowers on branching stems. (Tiny Staghorn). ... each 30c
- Decipiens Alba.** Foliage with broad, blunt lobes. White flowers. each 30c
- Decipiens Mixed.** Fine and rare hybrids. each 30c
- Guildford Seedling.** Bright crimson hybrid. One of the best. each 35c

ROBERTSONIA GROUP — (London Pride). This section embraces the well known London Pride and its immediate relatives. They require shady, moist position and all have attractive green foliage and delicately colored flowers.

Geum Minor. New. Pretty small leaves form. Dainty panicles of white flowers. May and June. each 50c 1.40

Umbrosa. (London Pride). Dark green foliage. 15 in. sprays of pink flowers. each 35c 1.00

Umbrosa Var. Colvillei. Beautiful deep green rosettes. 6 in. stems crowded with dainty pink to white flowers. each 50c

Umbrosa Primuloides. Mounded rosettes of dark wavy-edged foliage. 8 in. showers of soft pink flowers on pink stems. each 35c 1.00

Saxifraga Godseffi

DIPTERA GROUP—(Two winged Rockfoils). The members of this section are characterized by having petals of unequal length. They are natives of Japan and China. Practically hardy if planted in a well sheltered position.

Sarmentosa. Attractive white and green mottled leaves. White flowers. June and July. Shade and moisture. each 60c

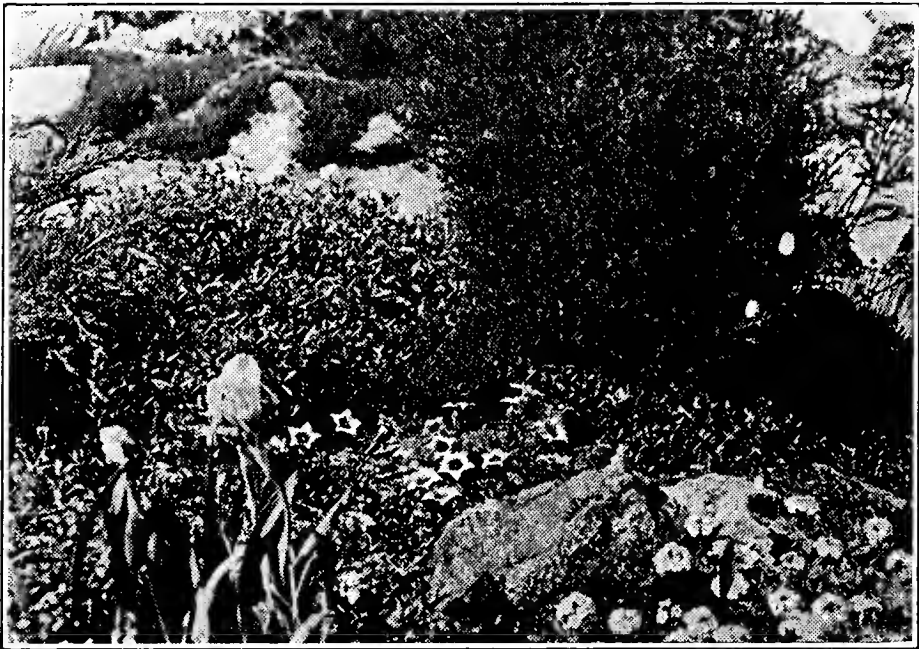

TRACHYPHYLLUM GROUP—(Rough-leaved Rockfoils). A group of low growing prostrate species. They require a somewhat moist position in stony soil.

Virginensis. Rosettes of toothed oval leaves. Showers of little white stars. each 25c .65

3 for

MEGASIA GROUP — (Large Leaved Rockfoils). These are known from all other Saxifrages by their massive size and breadth of leafage, and most of them being an evergreen character are very effective as hardy foliage plants at all times of the year. Plant in sheltered positions.

- Cordifolia.** Glossy leathery leaves. Pink flowers on 12 in. stems. each 40c 1.10
- Megasia Hybrida.** Fine strain of the large leaved Saxifrages. each 50c

Gentiana Acaulis and Androsace Primuloides

SEDUM

3 for

- SEDUM**—Sun loving plants, excellent for walls, dry banks, stepping stones, and rock gardens. The majority are well worth a place for the low carpets of richly colored foliage.
- Acre.** Evergreen carpeter. Yellow flowers. each 25c .65
 - Acre Elegans.** Attractive carpeter for paths. Bright yellow flowers. each 30c .85
 - Acre Golden.** Neat golden mats. each 25c .65
 - Album.** Tufted habit. White flowers on 6 in. stems. Summer. Europe. each 25c .65
 - Altissimum.** Blue green foliage. Yellow flowers on 9 in. stems. each 25c .65
 - Anacampseros.** Grey-green leaves. Purple flowers .. each 35c 1.00
 - flowers. each 35c 1.00
 - Anglicum.** Creeping evergreen making mats. Blush flowers. Summer. Western Europe. each 25c .65

SEDUM (CONTINUED)

62

3 for

Brevifolium. Very dwarf. Brilliant green leaves. Pearl-white flowers.	each 30c	.85
Cape Blanco. A new species. Compact rosettes of grey spatulate leaves and yellow flowers.	each 50c	
Crassipes. New. Often wrongly called Sedum Asiaticum. Yellow-white flowers. Height 6 in. Asia.	each 50c	1.40
Dasyphyllum. Small blue foliage. Sprays of rosy stars. ea.	25c	.65
Divergens. A beautiful and unusual species. Small green rosettes. Bright yellow flowers. Early summer. North America.	each 35c	1.00
Ewersii. Blue-grey leaves. Rose colored flowers. Late summer. Height 1 ft. Himalayas.	each 30c	.85
Fosterianum. Creeping evergreen forming mats. Brilliant golden flowers on 10 in. stems.	each 30c	.85
Gracile. Dense green foliage. White flowers with red anthers. Asia Minor.	each 40c	1.10
Hispanicum. Soft blue-grey foliage. The white flowers are touched with pink. Height 6 in. Switzerland.	each 25c	.65
Kamschaticum. Fine effective foliage. Trailer with orange yellow flowers. Summer.	each 25c	.65
Lineare Variegata. Pale green lovely variegated foliage and star-like yellow flowers. Height 6 in. Japan and China.	each 25c	.65
Lydium. Bright green foliage which turns red in poor soil.	each 25c	.65
Magellense. Bright green foliage. Pure white flowers.	each 30c	.85
Maximowiczii. Bright golden flowers on 12 in. stems.	each 30c	.85
Middendorffianum. One of the best. Very attractive foliage turning red in autumn. Yellow flowers. Siberia and Manchuria.	each 30c	.85
Mixed Varieties. Our selection.	dozen \$1.50	
Moranense. Wiry red stems. White flowers.	each 30c	.85
Nevii. Pale green rosettes in loose mats. White flowers with purple anthers. North America.	each 30c	.85
Oreganum. Bright green rosetted foliage. Yellow flowers fading pink. North America.	each 50c	1.40
Oregonum. Green rosetted foliage. Pink flowers. ..	each 50c	1.40
Oreganii. New. Like small grey roses. Yellow flowers. Fine.	each 60c	1.65
Pulchellum. Bright green foliage. Rose pink flowers. North America.	each 30c	.85
Pilosum. Rare. Tight rosettes. Large rose colored flowers. Asia Minor.	each 35c	1.00
Reflexum. Creeping evergreen forming mat. Bright yellow flowers in summer. Europe.	each 25c	.65
Rupestre. Blue-grey leaves. Golden flowers.	each 30c	.85
Sarmentosum. Creeping variety about 4 in. high with yellow flowers in summer.	each 15c	.40

		3 for
Sempervivum. Fat fleshy dark green leaves deepening to bronze, resembling a Sempervivum of the Calcareum group. Fine pink flowers.	each 75c	2.00
Sexangulare. Mats of gold. Fine for rock walls.	each 25c	.65
Sieboldii. Lovely silvery-blue foliage. Trailing variety. Bright pink flowers. Autumn. Shade.	each 35c	1.00
Spathulifolium. Evergreen rosettes tinged with red. Branched heads of bright yellow flowers. Very fine.	each 50c	1.40
Spectabile. Fleshy, glaucous leaves. Pink flowers. 2 ft. Autumn.	each 35c	1.00
Spectabile Brilliant. Red flowering form of the above.	each 35c	1.00
Spurium. A creeping plant with broad leaves and flowers of bright pink. Autumn.	each 25c	.65
Tenuifolium. Clustered spiky mats of pale green and white star shaped flowers. Rare.	each 40c	1.10
Ternatum. Evergreen broad leaved tufts. Pure white flowers with purple anthers. North America.	each 35c	1.00
Yosemitense. Rosettes of blue green foliage. Cymes of orange flowers on 4 in. stems. New. Rare and very fine. .	each \$1.00	2.75

Sempervivum Arachnoideum

SEMPERVIVUM—Interesting plants of easy culture for sunny situations. Soil should be a light loam containing sand, well rotted manure, leafmold and stone chips. The majority

of these plants change their form to some extent in different situations making it rather difficult to classify them correctly.

Acuminatum. Small type. Pale green sharp pointed rosettes.	each 25c	.65
Alberti. Pale green rosettes. Rose colored flowers. Rare.	each 30c	.85
Alpha. Very fine and rare type. Large rosettes.	each 75c	2.00
Arenarium. Small type with green rosettes. Large cream colored flowers on 2 in. stems.	each 25c	.65
Arachnoideum. Pale purple flowers on cobweb covered rosettes.	each 25c	.65
Arachnoideum Minimum. Smallest of the cobweb types. ea.	35c	1.00
Beta. Rare. Large rosettes of peculiar habit. Very interesting. New.	each 60c	1.65
Blandum. Large rosettes. Leaves crimson except for the edges and tip which are green. Light rosy purple flowers.	each 50c	1.40
Braunii. Small rosettes of pointed leaves. Slender 4 in. stems carrying a cluster of bright yellow flowers.	each 50c	1.40
Doellianum. Loose rosettes. Dull pink flowers.	each 30c	.85
Dolomiticum. Small dense rosettes. Acute leaves with hairy edges. Broad rose petals.	each 35c	1.00
Fauconettii. Small rosettes. Spidery filaments at the top of the leaves.	each 30c	.85
Fimbriatum. Small rosettes of pointed leaves. Bright pink flowers.	each 25c	.65
Funki. Bright emerald green rosettes even in winter. Large, fringing flowers of pale pink.	each 25c	.65
Globiferum. Tight green rosettes tipped with red.	each 15c	.40
Greenii. Large green rosettes.	each 50c	1.40
Hirtum. Rosettes ¼ in. across. Pale yellow flowers in panicles. Europe.	each 50c	1.40
Juratense. Very flat rosettes. Bright green leaves with outer edge reddish brown. Very fine.	each 75c	2.00
Lown's No. 60. Medium rosettes suffused with red.	each 50c	1.40
Mettenianum. One of the prettiest. Medium rosettes, grey green, tipped with red. Rose flowers.	each 40c	1.10

		3 for
Minto Seedling. Very rare hybrid. Large rosettes. Deeply tinged with red.	each 75c	2.00
Pittoni. Medium-sized rosettes, with a downy surface to the leaf. Pale yellow flowers. Scarce.	each 50c	1.40
Pyrenaicum. Pale rose flowers in wide heads. From the Pyrenees.	each 75c	2.00
Mixed Varieties. Unnamed.	dozen \$1.00; hundred \$8.00	
Rubicundum. Large rosettes of reddish color.	each 60c	1.65
Soboliferum. Pretty golden rosettes.	each 15c	.40
Tectorum. (Common Hen and Chickens or Roof Houseleek). Rosettes 3 to 4 in. across. Flowers pink-red. Europe and Asia.	each 25c	.65
Triste. Rosettes of bronzy-green foliage. Purple flowers.	each 40c	1.10
Verlotti. Medium green rosettes, slightly tipped red.	each 50c	1.40
Wulfeni. Large sea-green rosettes, slightly red at the tip. Pale yellow flowers in dense panicle. Central Europe.	ea. 60c	1.65

THYMUS

Aureus Nana. Small bushy type with golden foliage. Very fragrant.	each 35c	1.00
Aureus Vagans. A very unusual form with fine yellow variegated foliage.	each 50c	1.40
Citriodorus. Small lemon-scented Thyme. Native of North America.	each 30c	.85
Citriodorus Aureus. Golden leaved lemon-scented Thyme.	each 30c	.85
Nitidus. Silvery-grey variety with masses of rosy-lilac flowers. Height 9 in. Sicily. Very fine.	each 50c	1.40
Serpyllum Coccineus. Crimson flowered creeping Thyme.	each 30c	.85
Serpyllum Albus. Glossy green mats. Clouds of white flowers in June, July and August. Height 1 in. ..	each 30c	.85
Serpyllum Cinereum. A fine creeping form with lilac flowers.	each 30c	.85
Serpyllum Lanuginosus. (Woolly Thyme). Creeping habit; strongly scented foliage. Purple flowers. North America.	each 30c	.85
Serpyllum (Wild Thyme). Creeping habit. Strongly scented foliage. Purple flowers.	each 25c	.65
Vulgaris. (Common garden Thyme). The well-known herb. Fine foliage and lilac flowers. May and June.	each 25c	.65

Table Garden

TABLE GARDENS are becoming very popular. When properly planted with alpine miniatures they are fascinating and provide great interest during the winter. The list of plants given below have been thoroughly tested in overheated rooms and have proven their adaptability to flourish under these trying conditions.

Saxifraga in variety, Primula Juliae, Cotula Squalida, Rosa Roulettii, Bellium Minutum, Bellis Rotundifolia Caerulescens, Edri-anthus, Sedum Oregonum, Sedum Spathulifolium, Soldanella Alpina, Erinus Alpinus, Dwarf Ivies, Dwarf Ferns, Lotus Corniculatus, Mentha Requieni, Houstonia Caerulea, Sedum Dasyphyllum, Raoulia Australis, Achillea Tomentosum, Small types of Sempervivums, Lithospermum.

For "trees" the following may be used:— Aethionemas, Hypericums, Ericas, Small Azaleas, Seedling Evergreens, Dwarf Rhododendrons.

If you will send us the size of the container, we will be very glad to give suggestions on how to arrange the planting and what to use. We also have a collection of beautiful stones to use in the gardens.

DWARF OR SLOW GROWING CONIFERS AND EVERGREENS SUITABLE FOR ROCK GARDENS

We have a list of Dwarf Evergreens which are attractive in the rock garden. This will be sent on application.

THE PERFECT GARDEN LABEL

Ordinary lead pencil markings on this label are permanent without any protection, in all weathers, all soils, all seasons, above or under the soil. Inconspicuous, the beautiful cool grey-green color blends with the soil, foliage, and the rocks. They are economical as the markings can be completely erased with a pencil eraser and label marked again at any time.

1—5 cu. yd. Bulk	8.00

Carload 20—40 cu. yd. Bulk. F. O. B. Branchville, Conn. \$5.00 cu. yd.

IMPORTANT PERIODICALS FOR THE ROCK GARDENER

THE AMERICAN HORTICULTURAL SOCIETY

Publishes for its members a quarterly magazine in which are many articles and pictures of plants that should be known to all rock gardeners. You are cordially invited to join by sending your check for three dollars to the Secretary, Mr. C. C. Thomas, 211 Spruce Street, Takoma Park, D. C.

GARDENERS' CHRONICLE OF AMERICA

Reliable information on all phases of gardening, with special emphasis in each issue on rock gardening, alpine and native plants suitable for the American rock gardens. Published at 522 Fifth Avenue, New York, N. Y. Subscription two dollars a year.

GARDEN DIGEST

We have for several years highly recommended Garden Digest to our customers. It is one of the most useful and interesting magazines. It is pocket size. Just enclose a dollar bill to us or add one dollar to your order and we will see that Garden Digest is sent to you monthly for a whole year.

* * * * *

We recommend "PIONEERING WITH WILDFLOWERS" by George D. Aiken as being a splendid book for those interested in wildflowers. We will send this book postpaid for two dollars.
